

# THE EDITION OF THE + FAMILY + PHYSICIAN IS NEARLY EXHAUSTED

and This Offer is Subject to Withdrawal Without Notice.

## 10 BOOKS FREE!

A WORD ABOUT

## BOOK TRUSTS!

A big trust has just gobbled up a number of publishers' rights, and we are going to show you how you can obtain

## A BARGAIN IN BOOKS.

unheard of. The big trust referred to bought up all the rights of future publications, but we secured 25,000 Books of the old stock, and we propose to give our readers the benefit of the deal.

The books are numbers of the Seaside Library, with the style of which most people are acquainted. Many of the books were published at 20 cents each, many at 10 cents each; and no more of these will be printed to sell at these prices. The trust means to make more money.

For \$2.25 We will renew your own subscription to The WEEKLY FREE PRESS for a year, send The WEEKLY FREE PRESS for a year to a new subscriber, and SEND TO EACH OF YOU Ten Books. The Two Sets of Books and the papers all postage paid by us.

For \$3.00 We will renew your own subscription, send Ten Books each to Two New Subscribers and SEND TO EACH Ten Books free of postage.

Any old subscriber renewing and sending us one new subscriber and twenty-five cents may have

## Ten Books Free

The new subscriber always gets ten books. Any old subscriber renewing and sending us 50 cents more than his subscription may have

## Ten Books Free.

No transfer from one member of a family to another will be considered as a new subscriber. These books are Stories, Histories, Biographies and Travels, all by standard authors. They are sent direct from the publishers to our subscribers. We will try and follow the wishes expressed by our subscribers, and send them History, Story or Biography, as they may desire. We cannot agree to pick out any particular thing, however. They are all good, and you want them.

## How to Go to Work.

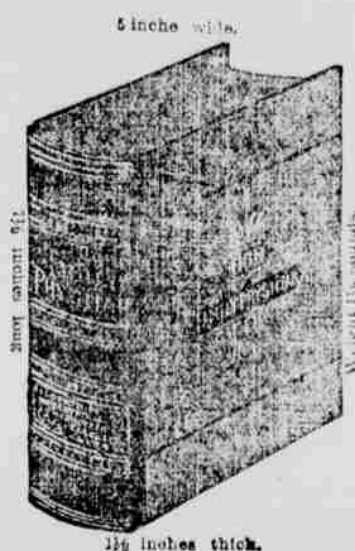

Be sure and get to work *At Once*. Send us names of those who do not take the FREE PRESS, and who ought to take it. We will send them sample copies. When they have read these you can find no difficulty in getting their subscription. They will like the paper, and will want some of those books. You must hurry and get their subscriptions before some other old subscriber gets in ahead of you. These are going fast.

## SECOND SEASON A FARM AND STOCK PAPER

— OF —

## OUR GREAT PREMIUM OUR FAMILY PHYSICIAN.

480 Pages - Price \$3.00.

## NEW EDITION.

At the earnest request of a large number of our friends who did not get a copy of "Our Family Physician" when we were offering it at a premium last season, we have concluded to renew the offer for the coming year.

A new edition of the book has been published which we shall use, and it is printed on better paper, and typographically it is much handsomer. The binding is changed. Instead of being bound in the thick and clumsy cover of former editions, it is now covered in flexible cloth, with the name "Our Family Physician" stamped on one side. It is this shape it is more of a handbook for daily use—a volume easily handled, and the page more readily turned.

We shall furnish it to subscribers of the FREE PRESS as follows:  
To every new subscriber who will take the FREE PRESS for one year, paying \$1 in advance, we will give a copy of the new edition of this book—price \$3.00, delivered free at our office.

Our experience with this book last season warrants us in saying that it is the best medical work for home use that we have ever seen.

The new volume contains 480 pages, and in form is what is known as a royal octavo, that is to give a better idea of its size, it is seven and one half inches long by five inches wide and one and one half inches thick. It is printed on extra heavy paper and is handsomely bound in cloth, with leaves cut flush, and with embossed covers and gilt-lettered back.

The reason why this book is so successful as a premium—why we used it last season and shall use it again—is that it is different from all other works of the kind ever published, and the difference is such that it makes it more valuable than any or all of them.

This is shown by the following points in which it stands alone and without an equal:  
**First**—It teaches those who have it how to tell what the matter is WHEN A PERSON GETS SICK.

All similar books tell what to do if you know what the disease is. This book tells you how to detect the disease, and then what to do for it. (We will show you how it does this if you will call and see us.)

### No Other Book Published Does This.

**Second**—When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is "Send for a competent physician at once." But in all ordinary cases, such as can be easily cured (and most of the ailments of a family are of this kind, if only you could recognize them) it gives full directions for treatment. The point is, that it teaches you to distinguish between a dangerous and a trifling disease, and tells you when it is necessary, and when not necessary, to call a physician.

### No Other Book Published Does This

**Third**—In its directions for treatment it is not confined to the practice used by any one class of physicians; but it gives, separately, and for each disease, the methods used by each of the different "schools" of medicine; and in all cases the prescriptions are made by the most eminent men in their respective modes of practice. This makes the work specially suited to the needs of every family, no matter what "school" of medicine they prefer.

### No Other Book Published Does This.

Besides this there are three chapters in the work which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants," and "Care of the Sick."

The first of these is a model of its kind. It is chaste in language, contains no disgusting pictures for children to happen on and be over-curious about, and taken altogether is the most practical, sensible and straightforward treatise upon this delicate subject that has ever been printed.

This chapter alone is worth many times the cost of the book to every mother, even if it had to be purchased at its regular price.

The other chapters referred to are equally well written and valuable.

But we need not further enlarge upon the merits of the book. We have said enough to substantiate our claim that it is different from all similar books, and to show that it is well worth having.

Hundreds of persons in this county got the book last year, and every one of them will say a good word for it. We print below what a few of our well-known citizens say regarding it.

If you already have a copy of the work you know how valuable it is, and what a treasure it is in any home.

Do you want to renew your subscription and get us ONE new subscriber, and so get another copy that you can give to some friend of yours, some son, or daughter who is married and gone from home, or some family that would highly prize such a book? If you do, now is your opportunity, for we shall not offer the book after this season.

This book will be given free at our office to new subscribers who send us \$1.00 for the WEEKLY FREE PRESS for one year. It will be given as a premium to any one who sends us a new subscription at \$1.00, the new subscriber also getting a copy of the book. It will be sent to subscribers only for \$1.50, postage prepaid. If the book is to be sent by mail 15 cents must be enclosed to pay postage.
